Fifty-Third Annual Report

of the

Local Government Board

of the

PROVINCE OF SASKATCHEWAN

for the twelve months ended December 31

1967

1867 1967

Regina, Saskatchewan,
January 31, 1968.

The Honourable W. Ross Thatcher,
President of the Executive Council,
Legislative Building,
Regina, Saskatchewan.

Sir:

Under instructions from the Local Government Board and pursuant to the provisions of The Local Government Board Act, being Chapter 43, Revised Statutes of Saskatchewan, 1965, I have the honour to transmit to you the Report of the Local Government Board for the year ending December 31, 1967.

I have the honour to be, Sir,

Your obedient servant,

H. S. McMillan,
Chairman.

104-01456/

Regina, Saskatchewan,
January 31, 1968.

The Honourable W. Ross Thatcher,
President of the Executive Council,
Legislative Building,
Regina, Saskatchewan.

Sir: -

The Local Government Board has a wide variety of responsibilities assigned to it by the Legislature. (See Appendix "A" for list of relevant statutes.) These responsibilities are almost all related in some way to local government administration with the principal task being regulation and supervision of municipal, school, union hospital, etc. capital financing; especially by way of debentures. Assigned responsibilities also include, broadly speaking, such controls as control of local authority accumulation and disposition of capital reserve funds and, in some cases, capital assets. Of a somewhat different character are the quasi-judicial responsibilities of the Board in the field of rate regulation of privately owned municipal utilities, privately owned electricity generating and distribution systems, petroleum pipelines, natural gas production and distribution systems. It is with local government financing problems that most of the Board's time is occupied and it is with this aspect of activity that this report is mainly concerned.

In the local government field the Board regards its primary purpose to be that of trying to preserve credit ratings of Saskatchewan local municipal governments. Thus, the Board has an interest in the financial implications of policies followed by cities, towns, villages, union hospital districts, school boards, school units and other local authorities in the province. The Board has, of course, authority to control such important aspects of local government financing as issuing of debentures, investment of sinking funds and use of capital funds arising from a variety of sources. However, because of its position, the Board has influence beyond that provided by statutes and this influence along with the controls it administers are directed towards encouraging prudent and careful operations so that Saskatchewan municipalities, schools, hospitals, etc. require and retain good credit ratings.

Year by year figures on debenture borrowing by Saskatchewan local governments are set forth in Tables I, II, III and IV immediately following the written portion of this report. They show that debentures issued during 1967 of $29,893,553.00 represented a substantial reduction from the all time record of $37,095,000.00 in 1966.

The Board had expected that a reduction in municipal borrowings would be reflected in the year 1967 and that an even greater drop could occur during the year 1968. This trend is evident by the fact that during 1967 the Board issued authorizations for proposed debenture borrowings of $25,010,120.00 in comparison to $36,536,000.00 during the year 1966 (a reduction of more than $11,500,000.00) and approved of local improvement works estimated to cost $8,418,295.00 in comparison to $16,752,000.00 in the previous year (a reduction of over $8,300,000.00). Furthermore, some considerable progress has been made in reducing the backlog of unsold debentures, estimated at mid 1966 to be in excess of $37,000,000.00, down to the area of $21,000,000.00 at the end of 1967. The Board is hopeful that the amount of unsold debentures can be reduced still further during 1968. It must, of course, be recognized that there will always be a certain amount of unissued debentures at any one time to take into account the time element between the date the authorization is given by the Local Government Board and the date the securities are actually sold, and in the case of local improvement work the actual borrowing does not take place until after the work has been constructed and procedures finalized.

There have been two major factors contributing to the trend to lower borrowings by local government in the province. On the one hand there has been, and is, a very difficult market situation for the sale of debentures, with extremely high cost of borrowed funds, and on the other hand there is a rising debt burden on local authorities with the impact most heavily on our urban communities.

During the latter part of 1966, markets for the sale of municipal debentures became very difficult with the cost of money rising to the high level of 7.30% to 7.40%. In approaching the year 1967, the Board had been hopeful that the situation would ease somewhat and cost of money would drop back by one-half to three-quarters of one percent. The Board's optimism in this regard was justified to some extent, as there was a distinct trend to improvement in the early months of the year. However, during the early summer, conditions began to deteriorate again and the situation, from the standpoint of the borrower, has been continually worsening. By the end of the year local governments, generally, were finding some difficulty in

securing investment funds through the regular channels even with the money cost in the area of 8%. There are no signs, in the Board's view, that would lead it to any feeling of optimism as to improvement in the bond market situation in the short term. It believes that the cost of money could still climb higher and it has accepted the position that local governments can expect to pay a minimum of 8%, generally, for long-term borrowing during the early months of 1968.

The Board has not encouraged municipal officials to offer their debenture issues through the regular channels if they could be satisfactorily dealt with in any other way. Substantial amounts have been sold locally and this Board wishes to commend those who have devoted a tremendous amount of time and energy to the task of locating purchasers within their communities. This has been the means of reducing the cost of money very materially, not only through avoiding the payment of commissions, but also in sales at a lower rate than would apply if the issues were sold on the regular market. Of great assistance has been the continuation of the policy of the Provincial Government to have Treasury support the market for the sale of certain municipal debenture issues through purchases on the recommendation of the Local Government Board. In many cases Treasury has agreed to buy at a slightly lower rate than would normally be the case. During the year under review the Board recommended the purchase of portions of 113 issues for a total of $3,645,549.00 as shown in Appendix "P".

During the period of high money cost for borrowed funds, the Board hopes that the officials of local government in Saskatchewan will offer some substantial resistance by refusing to undertake capital works involving long-term borrowing wherever possible. There is some evidence that a great many responsible local government people recognize the very grave situation in this respect and are making an honest attempt to defer capital works rather than pay abnormally high interest rates. The Board strongly recommends that works be deferred wherever practical and that the best possible use be made of any surplus monies available for capital programs. There is no doubt that, despite existing conditions, some projects must go forward. Only the most urgent of these projects should be considered for financing through long-term borrowing.

The Board is becoming increasingly alarmed about the rising debt situation in many areas of the province. We find that the burden in the matter of debt retirement is falling upon the urban communities. During the past number of years in practically every urban community in the province

the officials of the municipality, the School Board (or Boards), and the Hospital Board have each been separately pursuing their programs of capital works financed by the proceeds of debentures, generally, without direct consultation with each other. The result has been that, in the opinion of the Board, many urban centres are now facing dangerously high levels of debt. The Board is trying to meet this situation by exercising more rigid controls in these areas and as a means to this end, it has commenced the practice of inititating meetings at the urban community concerned. Representatives of the various local governments are invited to attend and provide full details of existing debt, unissued debentures, works in progress, immediate urgent capital works and projects envisaged in the foreseeable future. Through this procedure, the leaders of local government in the community become thoroughly familiar with the financial position and needs of the other local governments and can draw their own conclusions as to the total situation in their urban centre. Moreover, an opportunity is available for a full discussion of all presentations. The Board believes that there should be full co-operation between the officials of all local governments in one community in the matter of major capital works. In cases where total debt on the community is reaching serious proportions, further capital works on a limited basis must be determined through priorities within the community. The Board feels that the step that it is taking in arranging these meetings may be a starting point for future collaboration between the various groups. During the course of such meetings, and as the main purpose, the members of the Board become fully conversant with the existing situation and future works within the community. During the year 1967, meetings were arranged at the following points:

Community	Date of Meeting
Wynyard	February 20th
North Battleford	March 8th
Saskatoon	March 9th
Prince Albert	May 24th
Yorkton	May 8th
Melville	May 9th
Nipawin	October 18th

The Board is convinced that there have been sufficient beneficial results from this policy already to justify a continuation to include a number of other centres during the year 1968. These will be arranged, generally, as and when requests for approval of capital works are received in cases where the Board decides special consideration is indicated. It is believed that a great many local government officials have reduced their requests for debenture

authorizations due to existing bond market conditions and the somewhat more rigid controls of the Board. In addition to this, however, the Board has found it necessary to refuse some applications in whole or in part. The number of debenture applications involved, in this respect, during 1967 were 30 for a total of $1,393,700.00. There were six local improvement programs refused involving a total of $297,565.00. A number of these refusals were with the understanding or agreement of the local government officials concerned. At the close of 1967, the Board also had a number of applications before it which were under consideration.

In accordance with the provisions of subsection (2) of Section 203 of The Rural Municipality Act, the council of a rural municipality may, with the approval of the Local Government Board (or ratification of the relevant resolution or bylaw by the burgesses) defer the payment of expenditures beyond the current year. Any amounts so deferred become part of the debt of the municipality for purposes of calculating its remaining statutory borrowing power. In its consideration of any applications of this type, the Board follows the same principles and employs the same policies as apply with respect to debenture applications. It examines the financial position of the municipality, the purpose of the proposed expenditure, the effect on the rate of taxation and such other matters as in its opinion call for consideration. The policy has been adopted that approval will only be granted, if satisfactory in other respects, for a deferment on a short-term basis usually not exceeding three years. Otherwise, the Board feels that a debenture issue is indicated. Previously, these applications were reported by the Board as miscellaneous items, but due to the similarity between such approvals and debenture authorizations, it has been decided that they will be detailed in the report. In 1967, the Board granted 29 applications in this category involving the deferment of $555,333.00 as shown in Appendix "R".

The Board held 12 inquiries as detailed in Appendix "K". Ten of these cases related to applications filed with the Board by the councils of city and town municipalities for approval to construct local improvement works, mainly storm sewer districts, where the abutting property owners were being deprived of their rights to petition against the work under The Local Improvements Act. These applications were granted by the Board in all cases except the proposed storm sewer program for the Town of Hudson Bay which has been held in abeyance pending the receipt of further information from the Town officials. One inquiry related to a variation of a franchise agreement and the remaining inquiry related to an amending order to be issued by the Board readjusting the share of the estimated cost and proportion of the annual

expenditure to be borne by the co-operating municipalities and areas in the Assiniboia Union Hospital District under the provisions of The Union Hospital Act.

A brief summary of the Board activities over the course of 1967 follows below. Further details may be obtained by referring to the appendices of this report. The miscellaneous applications relate to a wide variety of matters on which no useful purpose would be served in providing details.

242 Formal Board meetings were held;

423 Applications for debenture issues totalling approximately $26,403,820.00 under various acts were dealt with;

236 Applications for approval to construct local improvement works under The Local Improvements Act were dealt with;

776 Miscellaneous applications were dealt with;

11 Budgets were examined and tax rates established as required under The Local Government Board (Special Powers) and (Temporary Special Powers) Acts;

59 Transactions in Sinking Funds under Board control were approved;

114 Transactions in R.M. Capital Trust Funds were approved by the Board as authorized in Section 204 of The Rural Municipality Act;

25 Transactions in other Capital Accounts were approved;

73 Agreements under The Housing and Special-care Homes Act 1965 were approved.

In addition to the formal meetings, inquiries, etc. reported herein, the Board spends a great deal of its time in conference with officials of local governments who seek advice on a wide variety of matters within the Board's jurisdiction or who present proposals relating to capital works programs. An estimate of such informal meetings during 1967 in Regina or throughout the province would extend to approximately 350 (excluding delegations who met with the Secretary and various members of the Board's staff). The Chairman of the Board also represented Saskatchewan at the

Conference of Public Utilities Commissioners in Victoria during September. The members of the Local Government Board are also the members of the Board of Revenue Commissioners. The Board is represented on the Municipal Water Assistance Board and the Industrial Towns Committee.

Section 6 of The Local Government Board Act provides that there shall be associated with the Board for advisory purposes a committee consisting of two members to be appointed annually, one by the executive of the provincial organization representing rural municipalities and the other by the executive of the provincial organization representing urban municipalities. The duties of the committee shall be to confer with the Board from time to time concerning matters of general interest in relation to the carrying out of The Local Government Board Act. For 1967 the appointees to this committee were Mr. W. R. Grant, of Cutknife, for the Rural Association and Mr. J. M. Murphy, Mayor of Milestone, for the Urban Organization. An attempt was made to hold a meeting of this committee during 1967 without success. The Board is hopeful that such a meeting may be arranged during the coming year.

On December 29, 1967, Mr. E. B. McKay retired from the Board after having served with great dedication as one of its members for a period of over 18 years. Mr. D. K. McCusker, resident of the Regina area and former Chairman of the Regina School Unit No. 21, was appointed to fill the vacancy on the Board as of January 1, 1968.

The Board acknowledges with sincere appreciation the co-operation it received from the officials of local governments, officers of various government departments, and representatives of investment dealers, consulting engineers, architects, banking institutions, and all others which it came in official contact with during the year. This very pleasant public relationship was of great assistance to the Board in the performance of its duties and functions.

Revenues received by the Local Government Board in 1967 were $66,470.09 with expenditures of $88,998.71.

Respectfully submitted,

H. S. McMillan, Chairman,
M. A. Swenarchuk, Member,
D. K. McCusker, Member.

APPENDIX INDEX

A - Statutes forming legal basis for Local Government Board activities.

B - Summary of debentures signed and sealed by the Board in 1967.

C - Summary of authorizations of debenture issues in 1967.

D - Proposed local improvement projects approved by the Board in 1967.

E - Authorization of sinking fund investments.

F - Surplus sinking fund earnings withdrawals.

G - Miscellaneous applications respecting purchase and sale of investments considered by the Board in 1967.

H - Transactions of Capital Accounts including Electric Light Trust Accounts.

I - Capital Trust Funds

J - Local authority estimates approved and tax rates authorized.

K - Inquiries and appeals held by the Board.

L - Orders issued by the Local Government Board in 1967 under The Public Health and Union Hospital Acts.

N - Road gravelling projects approved (Section 223 R.M. Act).

O - Miscellaneous applications dealt with by the Board in 1967.

P - Local government bonds recommended for purchase by the Provincial Treasurer to assist sale of issues.

Q - Housing Company agreements approved in 1967.

R - Deferrals approved (Section 203(2) R.M. Act).
